OBJECTIVE

Seeking an internship opportunity to apply my skills in programming, web development, and design to gain hands-on experience and contribute to real-world projects. Eager to work in a dynamic environment, learn from professionals, and continue growing as a developer and designer.

EDUCATION

Bachelor of Technology (B.Tech) — Computer Science Engineering (AI & ML) 2023–27

CMR Technical Campus, Kandlakoya
Pursuing

Intermediate (Class XII) 2021–23.

Aryabhatta Junior College
Percentage: 71.9%

TECHNICAL SKILLS

- Programming Languages: Python, Java, C/C++, SQL, JavaScript, HTML/CSS
- Frameworks & Libraries: Django, Bootstrap
- Tools & Platforms: Git, Google Colab, IBM Cloud
- Design Tools: Figma (Learning), Adobe Photoshop.

PROJECTS

Emotion-Based Music Recommendation System
Built a system that suggests music based on user emotions, enhancing user experience with personalized recommendations.

YouTube Video Transcriptor
Developed a tool that generates easy-to-understand summaries of YouTube videos to help users quickly grasp content.

ADDITIONAL SKILLS

- Strong designing skills for creating user-friendly web pages.
- Good understanding of UI/UX principles and web accessibility.
- Continuous learner with a growing interest in mobile app development using Flutter.

CERTIFICATES

- **Basics of Python** - infosys springboard
- **Introduction to AI** - infosys springboard
- **Face Detection Bootcamp** - Ai club CMRTC.
- **Photoshop Basics to Advanced** - Udemy.
- **Python Full Stack** - Eduskills.

STRENGTHS

- Quick learner and adaptable
- Strong problem-solving skills
- Team player with leadership qualities
- Good communication skills
